If you want choicest, most outstanding evergreen, get this one **JAPANESE YEW**—This is by far the best and most satisfactory evergreen for formal foundation planting. It can be set against a house or other plants and not get thin or unsightly. Grows upright to center stem; many branches; can be pruned to any desired shape and size. Leaves 2½ to 3 inches long, about ½ inch wide, dark, rich green. Absolutely hardy. Does well in sun and shade. Berries in fall. Price postpaid, NR, 20 to 24 inches, branched, 75c; express collect, BB, 2½ to 3 ft., \$1.00; 3 to 4 ft., \$1.25.

JAPANESE YEW—We have trimmed to one stem and staked a number of these plants to make tall slender columnar plants for formal planting; such as entrance to doorways, etc. Price BB, express collect, 3½ to 4½ ft., \$1.50.

BEAUTIFYING AND IMPROVING THE HOME GROUNDS

Take advantage of our **FREE PARCEL POST DELIVERY SERVICE** on light weight trees and plants that can be shipped by mail. By us paying the postage at this end our customers are saved the expense of the postal delivery and also the C.O.D. fee.

This is a grand opportunity for everyone to make new plantings, re-arrange and fill in to set new varieties and make changes in general to add zest and spice in the game.

All stock too large and heavy to be shipped by mail will be shipped express collect or in some instances freight collect.

Everyone who owns a HOME should make every effort to improve it by making it more comfortable and attractive. Setting out trees and evergreen plants accomplishes this easily, cheaply and quickly.

A little money, time and energy spent in setting our fruit and nut trees for orchards, evergreen and flowering shrubs for the yard yields more happiness, pleasure and profit than any other way it could possibly be spent. Our Nursery stock is very reasonably priced.

The best time to set out fruit and nut trees, roses and flowering shrubs is during the winter months after the foliage has shedded.

The best time to set out evergreen plants is any time during the fall, winter and spring months if plants are dug with a ball of dirt and kept watered plentifully.

Evergreen trees and plants can be set during the winter months without a ball of dirt provided the roots are NEVER allowed to become dry.

Our aim is to be fair, square and honest, and it is our sincere desire to ALWAYS give customers full value for their money. Should an error occur it is unintentional and we shall be glad to correct it.

OUR TREES AND PLANTS ARE FREE OF DISEASE—A certificate of inspection of the Mississippi State Entomologist accompanies each bundle of trees. ALL INSPECTION LAWS OF OTHER STATES ARE COMPLIED WITH.

OUR SHIPPING FACILITIES are good, having the Southern railroad running through Lumberton. We have local and long distance telephone and telegraph service. Also bus lines.

SUBSTITUTIONS—If out of the varieties fruit trees ordered, we will send the ones we know to be equal or superior unless instructed not to substitute.

NO EXTRA CHARGE FOR PACKING OR DRAYAGE—Our trees are carefully tagged, tied, roots packed in damp material and wrapped, free of charge.

CLAIMS—If by any possibility errors should occur, they will be promptly rectified, if claim is made UPON RECEIPT OF TREES. We will not be liable for more than purchase price of stock.

GUARANTEE—We guarantee our trees to be well grown, properly handled, packed and shipped according to instructions.

We do not guarantee trees or plants to live because we have no control over the handling of them after they leave our hands.

HOW TO SET OUT TREES AND PLANTS

Immediately upon receipt of stock open bundle and if dry immerse roots in water for a few hours. Dig hole large enough to set roots without cramping. Spread roots out and set about same depth as they naturally grow. Pack good top soil in and around roots firmly. Pour in sufficient water. Let settle. Finish filling hole. Leave trench around, add more water. Let soak in. Water when necessary. If plants are balled LEAVE THE BURLAP ON. Set as above.

NEVER PUT COMMERCIAL FERTILIZER IN HOLE. It may be applied on top of the ground and hoed or watered in.

ROSES

Our **ROSES** are very fine 2 yr. field grown budded stock of 30 of the very best selected monthly blooming varieties for the South. Don't expect northern grown stock to do well in the South.

Our plants are healthy, thrifty with good root system and should bloom early next spring.

Set out several plants now while you can get the **VERY** best plants delivered free

Price postpaid, 3 plants, any of the 30 varieties listed for only \$1.00; 12 for \$3.50.

EVERGREEN BARBERRY—Long, spiny, gloss green leaves, compact graceful shrub. Price postpaid, NR, 1 to 1½ ft., 75c.

COTONEASTER FRANCHETTI—Graceful, small leaves, branches covered with cluster pink flowers followed by red berries. Price express collect, BB, 3 to 3½ ft., 90c.

ENGLISH IVY—One of the best ground or stone covers; clings; fine for shade locations; rich dark green leaves. Price postpaid, NR, 35c each; 3 for \$1.00.

PRIMROSE JASMINE—An evergreen trailing plant that may be kept pruned in bush form, making a gorgeous mass; yellow blossoms in early spring, thrifty, beautiful. Price postpaid, NR, 2 to 2½ ft., 35c; 3 for \$1.00; express collect, BB, 3½ to 4 ft., 50c.

HUMILE JASMINE—Fine, small leaved evergreen trailing shrub, small yellow flowers. Price, 2½ to 3½ ft., 50c each, BB, express collect.

EUONYMUS JAPONICUM—Hardy, upright, waxy green leaves. Price, 2½ to 3 ft., 75c each, BB, express collect.

ELEAGNUS PUNGENS—Broad, bronzy, green leaves, underside white; a pleasing contrast. Price, express collect, 2½ to 3 ft., \$1.00; BB, \$1.00.

VARIEGATED ELEAGNUS—Same as above except about half of leaves are rich yellow, fine for color in planting. Price, express collect, BB, 2½ to 3 ft., \$1.00

CHERRY LAUREL—Beautiful, hardy, useful; prune to bush or tree size. Foliage rich green; white flowers in spring, blue berries. We have a choice lot of bushy, well formed plants. Useful for back-grounds. Price postpaid, 1½ to 2 ft., NR, 35c; 3 for \$1.00; express collect, BB, 3½ to 4 ft., \$1.00; 4½ to 5 ft., BB, \$1.25.

LIGUSTRUM JAPONICUM—Rapid, tall, growing several feet in one season. Leaves dark green, large and broad. Price postpaid, NR, 2 to 2½ ft., 35c; 3 for \$1.00; express collect, BB, 3 to 3½ ft., branched, 50c; 4 to 5 ft., BB, 75c; 5 to 6 ft., BB, \$1.00.

LIGUSTRUM LUCIDUM—GENUINE WAXLEAF—We have carefully selected the very best big thick waxy leaved plants and propagated from them. Do not confuse our genuine waxleaf with small leaved seedling stock so often seen. This variety ligustrum is by far the most useful and satisfactory of all evergreens in South. Perfectly hardy, vigorous the year round; graceful, compact, can be pruned to any size and thickness. Blooms freely of white flowers followed by blue-black berries.

Excellent for foundation planting as well as specimen, mass and hedge planting. This variety is NOT attacked with white fly or any other insect—no disease.

Very few plantings ever have enough of this evergreen. Price postpaid, 1½ to 2½ ft., NR, 35c each; 3 for \$1.00; express collect, 2½ to 3 ft., BB, 50c; 3½ to 4 ft., BB, 75c; 5 to 6 ft., BB, \$1.25

MAHONIA BEALLI—Leaves dark, waxy, holly-like; yellow blooms blue berries. Fine in shade and near pools. Price postpaid, NR, 1 to 1½ ft., 90c.

MAGNOLIA FUSCATA—Old time favorite. Leaves thick, bronzy green. White fragrant blooms. Price, BB, express collect, 1½ to 2 ft., \$1.00; 2 to 2½ ft., \$1.25 each.

MAGNOLIA GRANDIFLORA—Very choice evergreen tree. Our state flower. Grows to 40 ft. Large thick waxy green leaves. Large white fragrant blooms in spring. Many of our trees branched from near bottom. Price, express collect, BB, 2½ to 3 ft., \$1.00; 3½ to 5 ft., \$1.50.

NANDINA DOMESTICA—Foliage different shades of green during the summer, turning to rich red during winter; plant loaded with red berries during winter. As it gets older, many shoots are sent up from the ground making a mass of plants. Price postpaid, NR, 10 to 12 inches, 35c; 3 for \$1.00; 12 to 15 inches, 50c each; express collect, BB, 15 to 18 inches, 75c; 2 to 2½ ft., 2 or more stems \$1.00. 2½ to 3 ft., \$1.25; 3 to 4 ft., several stems, \$1.50.

RAPHIOLEPSIS INDICA—Low, slow growing; oblong, thick, dark green leaves; hardy, white blooms; blue berries. We have used them with Japanese Yews at our front entrance. Price postpaid, NR, 12 to 15 inches, 35c; 3 for \$1.00; express collect, BB, 1½ to 2 ft., \$1.00.

PHOTINIA SERRULATA—Lagre holly-like leaves, red when young, green when mature. Price postpaid, NR, 15 to 18 inches, 35c; 3 for \$1.00; express collect, 2 to 3 ft., BB, \$1.00.

PHOTINIA GLABRA—New leaves red; look from a distance like red blooms. Price, express collect, BB, 1½ to 2½ ft., branched, \$1.00 each.

AMERICAN ELM—Hardy, rapid growing, tall, stately. Price postpaid, 3 to 4 ft., 50c.

CHINESE ELM—Fine leaf, many branched, medium size tree. Price postpaid, 3 to 4 ft., 50c

TEXAS UMBRELLA CHINA—Makes the quickest and densest shade of any tree known. Price, 2 ft., 35c, postpaid.

VITEX or CHASTE TREE—Blooms Buddsia, blooms all summer, very hardy. Price postpaid, 2 to 3 ft., 35c each; 3 to 4 ft., 50c each.

PECANS

PECAN TREES ARE A LIFE TIME INVESTMENT

It is a beautiful sight to see thousand and thousands of papershell pecan trees— especially in South Miss. bending and many breaking with their heavy load of rich nuts.

At least several papershell pecan trees should be planted about every "Home Grounds". The trees are invaluable for landscaping effect as well as furnishing shade for the grounds. Trees form the framework for landscaping grounds around which designs of shrubbery walks and pools are formed. There is nothing more fascinating than gathering large fine nuts and storing them away to be eaten and enjoyed around the fireside through cold bleak days of winter. Many, many recipes call for the nuts in candies, salads, cakes etc.

For many years we have carefully selected our budding and grafting wood from bearing trees of extra large nuts, and trees that for us have borne a fair to large crop of nuts under all weather conditions. By so doing our nursery trees should bear the same large choice nuts.

Buy your pecan trees DIRECT from a reliable Nurseryman to be sure of getting true varieties.

STUART—The very best variety of Papershell Pecan for all purposes and for all locations. The tree is hardy, grows off promptly, practically immune to attacks of insects or diseases; bears early, regularly, hold the nuts under different weather conditions and responds to good treatment. The nut is large, averaging 40 to 50 per pound; plump, bright, delicious flavor, rich, oily, shell thin, cracks easily in hand. Were it necessary to have only one variety we would certainly choose this one.

SUCCESS—The next best variety. Comes into bearing early and bears heavy crops; nuts large, ovate shape; kernel plump, heavy rich, and a delicious walnut flavor; shell thin, cracks easily. In some sections this variety does extra fine.

PRICES BEST PAPERSHELL PECAN TREES
